REMOVAL OF DEPOSITS FROM COPYRIGHT OFFICE

NOTICE is given to authors, copyright proprietors and other lawful claimants that they may claim and remove before January 1, 1960, any article of the following named classes of published works deposited for copyright between January 1, 1956, and January 1, 1957, not reserved or disposed of as provided by sections 213 and 214 of Title 17 of the United States Code and still remaining in the files of the Copyright Office at the time of the request for their removal. The classes of published works covered by this notice are:

Books and Pamphlets.
Contributions to periodicals.
Works of art; models or designs for works of art.
Reproductions of a work of art.
Drawings or plastic works of a scientific or technical character.
Photographs.
Prints and pictorial illustrations excluding prints or labels used for articles of merchandise.

Other published works and all unpublished works are excluded from this notice.

The request for the removal of any copyright deposit should be signed by the person entitled thereto or his duly authorized agent. Such request should identify the work by stating the title, author, copyright proprietor, registration number and year of deposit, and should be addressed to the Copyright Office, Library of Congress, Washington 25, D. C.

L. C. card, 6-35347

This number identifies the Library of Congress printed card for the complete series of the Catalog of Copyright Entries.

For sale by the Register of Copyrights, Library of Congress, Washington 25, D. C. Price for this part: $.50 per issue, $1.00 per year.

Form 1

Preface

The CATALOG OF COPYRIGHT ENTRIES is published by authority of sections 210 and 211 of Title 17 of the *United States Code*. Section 210 provides in part: "The current catalog of copyright entries and the index volumes herein provided for shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

The *Catalog* is subdivided to represent the classes of material listed in section 5 of said Title 17. The table at the end of this preface shows the organization of the *Catalog*, the symbols used with the registration numbers to distinguish the classes, and the prices of the semiannual issues. The annual subscription for each part is twice the price of a single issue and the complete catalog, including all parts, may be secured on a subscription basis for $20 a year.

The record of each copyright registration listed in the *Catalog* includes a description of the work copyrighted and data relating to the copyright claim (the name of the copyright claimant, as given in the application for registration, the copyright date, the copyright registration number, etc.). Available information in the records of the Copyright Office, including information relating to subsequent changes of ownership, can be obtained upon request and upon payment to the Register of Copyrights of the fee specified in section 215 of said Title 17 ($3 for each hour of time consumed) for the conduct of a search of the records.

In the case of each registration listed, except for renewals, the deposit of a copy (or copies) of the work has been made in accordance with the provisions contained in sections 12, 13, or 215 of said Title 17, or, in the case of published three-dimensional works of art, there has been compliance with section 13 of said Title 17, which provides for the deposit of identifying reproductions in lieu of the work itself. Foreign works, two copies of which were deposited with a catalog card and application for registration under the waiver-of-fee provision in section 215 of Title 17 of the *United States Code*, are indicated by a zero immediately following the alphabetical symbol in the registration number.

For a more complete description of the contents of this issue of the *Catalog* see p. vii.

Orders, payable in advance, for all parts of the *Catalog of Copyright Entries* should be sent directly to the Register of Copyrights, Library of Congress, Washington 25, D. C. Orders may be placed for individual issues, as subscriptions for one or more parts, or for the complete *Catalog*, and for periods of one or more years. All orders should state clearly the title and the inclusive dates of the part wanted. Checks or money orders should be made payable to the Register of Copyrights.

The Copyright Office welcomes inquiries, suggestions and comments on the content and organization of the *Catalog*. Such communications should be addressed to the Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D. C.

Table of Organization

Each part listed in the table records all current registrations in the class or classes indicated by the alphabetical symbols given. In each case the first letter of the symbol is that of the class under which registration is made; the second, if any, is a designation added by the Copyright Office for the purposes of statistical analysis. A zero immediately following the symbol (e. g., AF0, EF0) distinguishes a foreign work deposited under the waiver-of-fee provision. The symbol R does not represent a class designated by the copyright law, but has been adopted by the Copyright Office to distinguish renewal copyright registrations. These are recorded in a separate section of those parts of the *Catalog* which cover the classes in which the works were originally

registered. Some parts also contain registrations made under other symbols if the subject matter or type of material is similar to that generally included in the part.

		Price per semiannual issue
PART 1 BOOKS AND PAMPHLETS, INCLUDING SERIALS AND CONTRIBUTIONS TO PERIODICALS		$2.50
A	Books	
AF	Books in foreign languages published abroad	
AI	Books in the English language first published abroad

Renewal Registrations	27
Index of Areas	35
Publishers Directory	57

INTRODUCTION

PART 6 lists domestic and foreign maps, atlases, and other cartographic works registered in class F, together with similar works currently registered in other classes.

Arrangement is alphabetical under the name of the copyright claimant. Each work is described in a main entry which includes information pertinent to the copyright claim. References lead from the names of joint claimants, authors, and other contributors to the works, from the names of publishers, and from variant forms of names. Works for which the subsisting copyright has been renewed are listed separately in the Renewal Registrations section.

The Area Index covers both currently registered works and renewal registrations, the latter being distinguished by the symbol "R" following the title. The Publishers Directory lists the publishers of current registrations together with the latest address for each as given in the application or copy.

Each main entry for works currently registered includes, in addition to the claimant's name under which it is filed, the following items of information if available and applicable:

1) Title, if necessary amplified by a brief identification of the area covered by the work, and followed by any variant titles.
2) Names of contributors to the work.
3) Edition statement.
4) Place of publication for works published outside of the United States.
5) Name of the first-named publisher when the publisher is not also the claimant.
6) Physical description, limited to scale, projection, or number of volumes, as appropriate.
7) Series statement.
8) Names of authors given in the application which do not appear elsewhere in the entry.
9) Name of the employer in the case of a work made for hire, if so named in the application, together with the names of the employees when given.
10) Information contained in the application which relates to the registration of an earlier version of the work.
11) Brief statement of the new matter on which copyright is claimed, preceded by the abbreviation "NM," if this information is given in the application and is not already indicated in the entry.
12) Copyright symbol ©.
13) Name of the copyright claimant.
14) Date of publication as given in the application.
15) Registration number.

Whenever it is necessary to indicate a variation between the information given in the application and in the copy of the work with respect to the claimant's name or the date of publication, the data from the application are given first, followed by the phrase "in notice" and the data given in the work; e. g., © Richard Roe & Co.; 8Jan58 (in notice: 1957); F20300.

For renewal registrations, the main entry includes, in addition to the claimant's name under which it is filed, the following items of information if available and applicable:

1) Title, including area.
2) Names of contributors to the work.

3) Edition statement.
4) Brief statement of the new matter on which the original copyright was claimed, preceded by the abbreviation "NM," if available in the renewal application.
5) Copyright symbol ©.
6) Date of original copyright.
7) Original registration number.
8) Name of the renewal claimant followed by a statement in parentheses, usually in abbreviated form, giving the basis of the renewal claim as supplied by the claimant; e. g., "John Doe & Co. (PWH) " indicates that renewal of copyright is claimed by John Doe & Co. as proprietor of copyright in a work made for hire.
9) Date of receipt of the renewal application or fee, whichever is later.
10) Renewal registration number.

ABBREVIATIONS AND SYMBOLS

The following list includes abbreviations and symbols used in this catalog with specific copyright or bibliographic meanings. Definitions are not given for abbreviations in common use.

(A)	—author
a.k.a.	—also known as
©	—copyright symbol
(C)	—child or children of the deceased author
ca.	—circa
comp.	—compiled by, compiler
d.b.a.	—doing business as
(E)	—executor(s) of the author
ed.	—edition, editor
(NK)	—next of kin of the author who is not living, there being no will
NM	—new matter
p.	—page(s)
(PCB)	—proprietor of a work copyrighted by a corporate body otherwise than as assignee or licensee of the author
(PCW)	—proprietor of the composite work
(PPW)	—proprietor of the posthumous work
pseud.	—pseudonym
pub.	—published, publishing
(PWH)	—proprietor of copyright in a work made for hire
rev.	—revised
t.a.	—trading as
tr.	—translator
v., vol., vols.	—volume, volumes
(W)	—widow of the author
(Wr)	—widower of the author

COPYRIGHT REGISTRATIONS FOR MAPS

January–June 1958

Class F—Maps published in the United States	900
Maps and atlases registered in Class A	41
Renewals	489

These figures represent the number of registrations for maps for January–June 1958, but do not necessarily represent the exact number of entries in this issue of the *Catalog of Copyright Entries*. Registration figures for other classes of material may be found in the respective parts.

MAPS AND ATLASES

CURRENT REGISTRATIONS

A list of domestic and foreign maps, atlases, and other cartographic works registered during the period covered by this issue. Arrangement is alphabetical under the name of the copyright claimant. References from names of joint claimants, authors, and publishers and from variant forms of names are interfiled.

INDEX OF AREAS

PREFATORY NOTE

This index to the current and renewal registrations in this issue is designed to meet the needs of those who are searching for a map of a specific area. Arrangement is by geographic area. Following the area heading are the name and title under which each entry is to be found in the current or renewal section. Renewal registrations are distinguished by the symbol "R" following the title.

The area headings consist of the largest geographical or political units enclosed within the borders of the several maps. When the borders of a map do not coincide in any way with a single geographical or political unit, the name of the most significant unit contained therein is used in the heading. When a map contains three or more states comprising part of one of the geographical divisions of the United States, one of the headings which is given in the "List of Geographical Headings" is used. If the area shown on the map does not coincide with any of the geographical designations, one of the following subdivisions under "United States" is used: northern, northeastern, eastern, southern, southeastern, central, northwestern, western, or southwestern. Names of rivers, lakes, and other geographical features are used when necessary.

LIST OF GEOGRAPHICAL HEADINGS

WASHINGTON : 1959

REMOVAL OF DEPOSITS FROM COPYRIGHT OFFICE

NOTICE is given to authors, copyright proprietors and other lawful claimants that they may claim and remove before January 1, 1961, any article of the following named classes of published works deposited for copyright between January 1, 1957, and January 1, 1958, not reserved or disposed of as provided by sections 213 and 214 of Title 17 of the United States Code and still remaining in the files of the Copyright Office at the time of the request for their removal. The classes of published works covered by this notice are:

Books and Pamphlets.
Contributions to periodicals.
Works of art; models or designs for works of art.
Reproductions of a work of art.
Drawings or plastic works of a scientific or technical character.
Photographs.
Prints and pictorial illustrations excluding prints or labels used for articles of merchandise.

Other published works and all unpublished works are excluded from this notice.

The request for the removal of any copyright deposit should be signed by the person entitled thereto or his duly authorized agent. Such request should identify the work by stating the title, author, copyright proprietor, registration number and year of deposit, and should be addressed to the Copyright Office, Library of Congress, Washington 25, D. C.

The Library of Congress catalog card for this publication is shown on the last page.

For sale by the Register of Copyrights, Library of Congress, Washington 25, D. C. Price for this part: $.50 per issue, $1.00 per year.

Preface

The CATALOG OF COPYRIGHT ENTRIES is published by authority of sections 210 and 211 of Title 17 of the *United States Code*. Section 210 provides in part: "The current catalog of copyright entries and the index volumes herein provided for shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

The *Catalog* is subdivided to represent the classes of material listed in section 5 of said Title 17. The table at the end of this preface shows the organization of the *Catalog*, the symbols used with the registration numbers to distinguish the classes, and the prices of the semiannual issues. The annual subscription for each part is twice the price of a single issue and the complete catalog, including all parts, may be secured on a subscription basis for $20 a year.

The record of each copyright registration listed in the *Catalog* includes a description of the work copyrighted and data relating to the copyright claim (the name of the copyright claimant, as given in the application for registration, the copyright date, the copyright registration number, etc.). Available information in the records of the Copyright Office, including information relating to subsequent changes of ownership, can be obtained upon request and upon payment to the Register of Copyrights of the fee specified in section 215 of said Title 17 ($3 for each hour of time consumed) for the conduct of a search of the records.

In the case of each registration listed, except for renewals, the deposit of a copy (or copies) of the work has been made in accordance with the provisions contained in sections 12, 13, or 215 of said Title 17, or, in the case of published three-dimensional works of art, there has been compliance with section 13 of said Title 17, which provides for the deposit of identifying reproductions in lieu of the work itself. Foreign works, two copies of which were deposited with a catalog card and application for registration under the waiver-of-fee provision in section 215 of Title 17 of the *United States Code*, are indicated by a zero immediately following the alphabetical symbol in the registration number.

For a more complete description of the contents of this issue of the *Catalog* see p. vii.

Orders, payable in advance, for all parts of the *Catalog of Copyright Entries* should be sent directly to the Register of Copyrights, Library of Congress, Washington 25, D. C. Orders may be placed for individual issues, as subscriptions for one or more parts, or for the complete *Catalog*, and for periods of one or more years. All orders should state clearly the title and the inclusive dates of the part wanted. Checks or money orders should be made payable to the Register of Copyrights.

The Copyright Office welcomes inquiries, suggestions and comments on the content and organization of the *Catalog*. Such communications should be addressed to the Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D. C.

Table of Organization

Each part listed in the table records all current registrations in the class or classes indicated by the alphabetical symbols given. In each case the first letter of the symbol is that of the class under which registration is made; the second, if any, is a designation added by the Copyright Office for the purposes of statistical analysis. A zero immediately following the symbol (e. g., AF0, EF0) distinguishes a foreign work deposited under the waiver-of-fee provision. The symbol R does not represent a class designated by the copyright law, but has been adopted by the Copyright Office to distinguish renewal copyright registrations. These are recorded in a separate section of those parts of the *Catalog* which cover the classes in which the works were originally

registered. Some parts also contain registrations made under other symbols if the subject matter or type of material is similar to that generally included in the part.

		Price per semiannual issue
PART 1 BOOKS AND PAMPHLETS, INCLUDING SERIALS AND CONTRIBUTIONS TO PERIODICALS		$2.50
A	Books	
AF	Books in foreign languages published abroad

Renewal Registrations	85
Index of Areas	93
Publishers Directory	115

INTRODUCTION

PART 6 lists domestic and foreign maps, atlases, and other cartographic works registered in class F, together with similar works currently registered in other classes.

Arrangement is alphabetical under the name of the copyright claimant. Each work is described in a main entry which includes information pertinent to the copyright claim. References lead from the names of joint claimants, authors, and other contributors to the works, from the names of publishers, and from variant forms of names. Works for which the subsisting copyright has been renewed are listed separately in the Renewal Registrations section.

The Area Index covers both currently registered works and renewal registrations, the latter being distinguished by the symbol "R" following the title. The Publishers Directory lists the publishers of current registrations together with the latest address for each as given in the application or copy.

Each main entry for works currently registered includes, in addition to the claimant's name under which it is filed, the following items of information if available and applicable:

1) Title, if necessary amplified by a brief identification of the area covered by the work, and followed by any variant titles.
2) Names of contributors to the work.
3) Edition statement.
4) Place of publication for works published outside of the United States.
5) Name of the first-named publisher when the publisher is not also the claimant.
6) Physical description, limited to scale, projection, or number of volumes, as appropriate.
7) Series statement.
8) Names of authors given in the application which do not appear elsewhere in the entry.
9) Name of the employer in the case of a work made for hire, if so named in the application, together with the names of the employees when given.
10) Information contained in the application which relates to the registration of an earlier version of the work.
11) Brief statement of the new matter on which copyright is claimed, preceded by the abbreviation "NM," if this information is given in the application and is not already indicated in the entry.
12) Copyright symbol ©.
13) Name of the copyright claimant.
14) Date of publication as given in the application.
15) Registration number.

Whenever it is necessary to indicate a variation between the information given in the application and in the copy of the work with respect to the claimant's name or the date of publication, the data from the application are given first, followed by the phrase "in notice" and the data given in the work; e.g., © Richard Roe & Co.; 8Jan58 (in notice: 1957); F20300.

For renewal registrations, the main entry includes, in addition to the claimant's name under which it is filed, the following items of information if available and applicable:

1) Title, including area.
2) Names of contributors to the work.
3) Edition statement.

4) Brief statement of the new matter on which the original copyright was claimed, preceded by the abbreviation "NM," if available in the renewal application.
5) Copyright symbol ©.
6) Date of original copyright.
7) Original registration number.
8) Name of the renewal claimant followed by a statement in parentheses, usually in abbreviated form, giving the basis of the renewal claim as supplied by the claimant; e.g., "John Doe & Co. (PWH)" indicates that renewal of copyright is claimed by John Doe & Co. as proprietor of copyright in a work made for hire.
9) Date of receipt of the renewal application or fee, whichever is later.
10) Renewal registration number.

ABBREVIATIONS AND SYMBOLS

The following list includes abbreviations and symbols used in this catalog with specific copyright or bibliographic meanings. Definitions are not given for abbreviations in common use.

(A)	—author
a.k.a.	—also known as
©	—copyright symbol
(C)	—child or children of the deceased author
ca.	—circa
comp.	—compiled by, compiler
d.b.a.	—doing business as
(E)	—executor(s) of the author
ed.	—edition, editor
(NK)	—next of kin of the author who is not living, there being no will
NM	—new matter
p.	—page(s)
(PCB)	—proprietor of a work copyrighted by a corporate body otherwise than as assignee or licensee of the author
(PCW)	—proprietor of the composite work
(PPW)	—proprietor of the posthumous work
pseud.	—pseudonym
pub.	—published, publishing
(PWH)	—proprietor of copyright in a work made for hire
rev.	—revised
t.a.	—trading as
tr.	—translator
v., vol., vols.	—volume, volumes
(W)	—widow of the author
(Wr)	—widower of the author

COPYRIGHT REGISTRATIONS FOR MAPS

July–December 1958

Class F—Maps published in the United States	737
Maps and atlases registered in Class A	156
Total	893
Renewals	557

These figures represent the number of registrations for maps for July–December 1958, but do not necessarily represent the exact number of entries in this issue of the *Catalog of Copyright Entries*. Registration figures for other classes of material may be found in the respective parts.

INDEX OF AREAS

PREFATORY NOTE

This index to the current and renewal registrations in this issue is designed to meet the needs of those who are searching for a map of a specific area. Arrangement is by geographic area. Following the area heading are the name and title under which each entry is to be found in the current or renewal section. Renewal registrations are distinguished by the symbol "R" following the title.

The area headings consist of the largest geographical or political units enclosed within the borders of the several maps. When the borders of a map do not coincide in any way with a single geographical or political unit, the name of the most significant unit contained therein is used in the heading. When a map contains three or more states comprising part of one of the geographical divisions of the United States, one of the headings which is given in the "List of Geographical Headings" is used. If the area shown on the map does not coincide with any of the geographical designations, one of the following subdivisions under "United States" is used: northern, northeastern, eastern, southern, southeastern, central, northwestern, western, or southwestern. Names of rivers, lakes, and other geographical features are used when necessary.

LIST OF GEOGRAPHICAL HEADINGS

ATLANTIC SEABOARD

- Connecticut
- Delaware
- Florida
- Georgia
- Maine
- Maryland
- Massachusetts
- New Hampshire
- New Jersey
- New York
- North Carolina
